INSTITUTIONAL DECLARATION

Venezuela Digna — Proyecto País 2027–2037 is an initiative promoted and sponsored by Despierta Venezuela Inc.

It arises from the need to contribute to the recovery, reconstruction and construction of a new Venezuela, after more than 27 years of a regime that has deeply marked the country and an opposition that, from our institutional perspective, has failed to offer the answers that Venezuela needs.

This Country Project does not belong to, represent, or is subordinate to any politician, political party, candidacy, or partisan movement.

It arises from Venezuelan civil society: men and women, professionals, organizations, social leaders, businesspeople, entrepreneurs, and citizens of values and principles who share a fundamental conviction:

VENEZUELA COMES FIRST.

It is a project conceived for Venezuelans, built with Venezuelans and oriented towards future generations.

Above personal, partisan or economic interests, we are united by our love for Venezuela, the dignity of its people and the determination to contribute to building a country based on principles, solid institutions, opportunities, justice, prosperity and freedom.

And in our formula to rebuild Venezuela, we always put God first.

Venezuela Digna
COUNTRY PROJECT 2027–2037

Short Executive Summary · Version 3.0 · October 5, 2026 Aligned with the Consolidated Master Document v2.0

VENEZUELANS FIRST. An initiative driven and sponsored by Despierta Venezuela Inc. to recover services, institutions, and opportunities with a ten-year national vision. Its purpose is to tangibly, sustainably, and verifiably improve the lives of Venezuelans.

A dignified country with institutions and opportunities

The proposal addresses security and justice, economic stability, health, education, water, electricity, infrastructure, employment, production, social protection, and family reunification. It integrates decentralization, the environment, culture, sports, tourism, the diaspora, foreign policy, digital transformation, artificial intelligence, and public finances. Transparency and accountability apply to all interventions.

Thirty national areas and one hundred proposals

The master plan consolidates the **30 approved national areas,** linked to the **12 existing operational pillars,** and retains exactly **100 proposals.** The fact sheets connect diagnosis, objectives, emergency response, reforms, projects, responsible parties, resources, timelines, indicators, risks, and the 2037 target. The Master Matrix links each intervention with a unique identifier to avoid duplicating projects, beneficiaries, or budgets.

Christian spiritual foundation

Venezuela Digna affirms its faith in **Jesus Christ** and its Christian spiritual foundation. God first is expressed through truth, integrity, love of neighbor, care for family, and service. The plan incorporates voluntary spiritual accompaniment and transparent community collaboration. This identity coexists with freedom of conscience and universal access to rights and services.

Priorities and implementation

WOMAN DIGNIFIED as a cross-cutting program

The National Program for Autonomy, Protection, and Opportunities for Venezuelan Women connects seven components: **Safe Woman; Working Woman; Entrepreneurial Woman; Care and Progressing Woman; Learning Woman; Health and Well-being Woman; and Leadership Woman.** It integrates with existing proposals, without adding a 13th Pillar or a 13th Front.

Its instruments are the Mujer Digna **'s Centers,** preferably utilizing existing capacity; the Mujer Digna **'s Pathway,** with personalized support; the **Women Entrepreneurs Mechanism,** subject to feasibility and financial evaluation; and **Care for Growth,** with shared responsibility and safe services. The objective is to transform protection, capabilities, and opportunities into autonomy and progress for women and their families.

A ten-year sequence

Phase 0: preparation, evidence, competencies, and a viable portfolio. **First 100 days:** address emergencies, verify capacity, and launch viable interventions and pilot projects. **Months 3–24:** stabilization and evaluation. **Years 2–5:** rebuilding and expanding what works. **Years 5–10:** transformation and consolidation toward 2037. Expansion requires verified capacity, security, and recurring funding.

Public responsibility and fiscal sustainability

Each project must specify what it will do, who is responsible, when it will be implemented, how much it will cost, how it will be financed, and how it will be measured. The national government, states, municipalities, businesses, academia, communities, and the diaspora will act according to defined competencies and agreements. Despierta Venezuela Inc. is promoting this initiative without assuming public authority or committing third-party resources.

Public budgets, private investment, credit, cooperation, multilateral funds, and voluntary contributions will be differentiated. Social spending, loans, and guarantees will be accounted for separately. Open contracting, audits, data protection, and independent evaluation will support citizen oversight. The Dignity Dashboard will measure life changes in addition to activities, with specific monitoring of the Mujer Digna program.

Goal 2037 and state of development

The vision is a Venezuela with reliable services, ethical institutions, security, productive opportunities, and families experiencing greater well-being. The teacher training program is ready for institutional review; the budgets, baselines, and quantified goals require validation before adoption. The goals express a policy direction, not guaranteed results.

Access to technical development. This document summarizes the Country Plan developed in the master plan. Individuals, organizations, or institutions interested in learning more about it, reviewing it, or contributing to it must first sign the corresponding confidentiality agreements. The national consultation informs the technical analysis and remains separate from the Country Plan.
